

Viewing Reports

Using the Report Generator, you can view reports for recent page activity, custom form submissions, and commerce data (if applicable).

Step 1: Click on the Reports option in the top navigation and select “Report Generator” from the menu.

Step 2: Select the *Category* and individual *Report* that you would like to view. Once selected, many reports will display additional options that you can configure.

Step 3: Click the **View Report** button to open the report in a new browser tab or window. Alternatively, you can click the **Export** button to load the report in Microsoft Excel.
